

AltaStream Rental Program

Renting generators just got easier.

Welcome to the AltaStream Rental Company Support Program.

AltaStream Power Systems understands the difficulties faced with rental companies when trying to accommodate customers with unique power generation needs.

We are here to support your business whether through sales, co-renting, or service and support.

Sales & Services

AltaStream is currently offering the following products and services:

- Baldor TS series units from 25kVA to 400kVA. These generators are engineered to meet the most rugged conditions. Available with or without the trailer.
- Baldor industrial portable generators from 1,100 through 11,000 watts. These generators are designed for continuous operations and are suitable for applications where portable power is needed.
- Other makes and models are also available
- Power Distribution Equipment (cables, distribution boxes, outlets, ect...)
- General servicing or maintenance for any generator set.

Co-Rent

AltaStream is pleased to offer a generator co-rent program at special discounted rates. We can provide larger units for your customers without the capital required to stock them.

- Units are not AltaStream branded.
- Sales assistance in sizing customer requirements.
- Option to add a placard on the unit with your company's logo.
- Units and appropriate accessories available as required.
- Option to add remote monitoring for the units.
- Additional discounts available for large or extended orders.
- General servicing and maintenance for any rental system.
